

TECHNICAL BULLETIN

Bastech 100 Series

PRODUCT DESCRIPTION:

Bastech 100 Series is a water extended defoamer designed for use on paper machines. This product has been designed to eliminate surface foam and to deairate the headbox. Bastech 100 Series has excellent spreading properties and is extremely cost effective.

APPLICATIONS:

Bastech 100 Series is typically added neat just prior to the foaming areas which are typically machine chest, fan pump, or the silo providing dilution. Although generally added neat it can also be pre-diluted with cold water.

TYPICAL PROPERTIES:

Appearance:	White emulsion
Density @ 80°F:	8.0 ppg
Viscosity @ 80°F:	800-1600 cps
Solubility in water:	Dispersible

STORAGE AND HANDLING:

This product will freeze, please store above 40°F. If frozen the product should be warmed and mixed prior to use.

REGULATORY STATUS:

Bastech 100 Series is manufactured in compliance with the regulations of the Food and Drug Administration as described in 21 CFR 176.210.

This product does not contain components that are regulated by California Proposition 65.

PACKAGING INFORMATION:

Bastech 100 Series is available in bulk and tote bins at 2200 pounds net.
