

TECHNICAL BULLETIN

Bascote 24

PRODUCT DESCRIPTION:

Bascote 24 is a mineral oil based coating oil designed to minimize caking and control dust emissions. This product can enhance flow ability and minimize moisture pick up. In some cases it will improve the appearance and modify nutrient release characteristics.

APPLICATIONS:

Bascote 24 is typically added at a rate of 2 kilograms per metric ton.

TYPICAL PROPERTIES:

Appearance:	Clear, water-white liquid
Density @ 100°F:	7.1 ppg
Viscosity @ 40°C:	<18 cSt
Flash point COC:	>199°C
Sulfur ppm by X-ray:	<300 ppm
Percent aromatics:	<2%
Percent volatility GC,SIM DIST @ 700°F:	<17%

STORAGE AND HANDLING:

This product will freeze at 5°F. Please store above that temperature.

REGULATORY STATUS:

Bascote 24 is manufactured in compliance with the regulations of the Food and Drug Administration as described in Title 21 CFR 172.878, white mineral oil for direct food contact.

The components of Bascote 24 are listed on the TSCA inventory.

This product does not contain components that are regulated by California Proposition 65.
